A Smarter Benefit for Your Team

Your digital
solution to
track, grow &
protect you
wealth.

WHY MYNE?

"83% of employees cite financial stress as a top concern"

Health & Wealth: A Corporate Priority

Today, companies recognize the importance of supporting both the physical and financial well-being of their employees.

From subsidizing gym memberships to offering customized pension plans, businesses are investing more than ever in holistic employee wellness.

Yet, one critical aspect of financial health is often overlooked: the ability to view, manage, and protect personal assets in **real-time**.

That's where **Myne** steps in.

INTRODUCING MYNE?

A Holistic Approach to Financial Well-Being

WHAT'S IN IT FOR YOUR EMPLOYEES?

Myne as a benefit?;

What if your company could offer Myne as a benefit—fully subsidized or at a discounted rate—to help employees track, grow, and protect their wealth?

Myne's **platform** goes beyond basic budgeting, providing **real-time** asset aggregation, **live** budgeting, estate planning & more.

It empowers employees to take **control** of their finances, safeguard their assets and secure their families' futures.

CLARITY WHEN IT'S NEEDED MOST

A Real Story. A Real Need.

Financial clarity often becomes critical in times of crisis. After a friend's accident, his wife struggled for months to piece together their finances—lost in a maze of accounts, assets and legal complexities.

This scenario is all too common. **Myne** provides families with clear, documented financial insight, removing guesswork and **easing** the burden during life's hardest moments.

DEEPER LOOK?

Value for both Employees & Corporations

At Myne, we are committed to delivering peace of mind—offering a tool that empowers individuals to understand, track and manage the fruits of their daily efforts.
